

Pre-Employment Screening That Protects Your Business

Hiring the right people goes beyond assessing skills. It also involves evaluating safety, fitness, and long-term performance. **AusRehab's Pre-Employment Screening** ensures candidates are fit for duty before they step into the role, reducing workplace risks and giving employers peace of mind.

Backed by accredited allied health professionals, our assessments go beyond ticking boxes. **We deliver clear, evidence-based recommendations so you can hire with confidence.** At **AusRehab**, we provide fast, accurate, and tailored assessments that help businesses make informed hiring decisions while keeping workers safe and supported.

Confirms candidates are fit for duty

Reduces risk of injuries and claims

Supports compliance with WHS & standards

Professional recommendations

Fast results & flexible booking

“

Working with AusRehab gives us peace of mind. We now know our workers are fit for duty before they even start.

It's like having a true extension of our team; real people who care about our needs.

Izmir Pooloo

Operations Manager,
Your Aged Care at Home

*The Importance of Pre-Screening
Before a Hire*

Who It's For

- **Employers & HR Managers** seeking peace of mind during hiring
- **Safety Managers** ensuring compliance and reduced injury risks
- **Recruitment Agencies** seeking a faster, more streamlined vetting process
- **Growing Businesses** aiming to safeguard their workforce

Accredited healthcare professionals conduct our screenings and a comprehensive range of assessments. With fast turnaround and flexible locations, including onsite testing in Sydney, **AusRehab** makes it easier for businesses to onboard the right people without delays.
